This program will provide the trainee with the knowledge and information of tractor safety and farm hazards. Safety training is required by the U.S. Department of Labor for youth ages 14-15 who will be working on a farm for someone other than their parents. However, there are many cases where youth need certification even when working on the "family farm". Certification will be presented to participants who:

- Attend the entire session
- Complete all assignments
- Successfully complete a tractor safety exam
- Safely demonstrate the ability to operate a tractor and all its controls according to safe operating procedures under the supervision of a parent or employer
- Youth ages 14-15 years (others will receive certification at the time they turn 14)

### ***PARTICIPANTS SHOULD BRING: MANUAL, PEN/PENCIL, & A READY-TO-LEARN ATTITUDE!***
